

PRODUCT CATLOGUE

Surgical Examination & Medical
Disposable

Non – sterile Latex Examination Gloves

Our non –sterile latex examination gloves are widely used for preventing contamination while operating patients.

Features

- Easy to wear
- Prevent cross-contamination
- Precise sizing
- Latex Examination Low powdered Gloves
- Material : Natural Rubber Latex

Product Code	Size
D/S/001	• XS,S,M,L

Latex Surgical Gloves

These gloves designed to be perfectly anatomical for comfortable wrinkle-free fitting. They are extremely soft rubber reduces finger fatigue and increases efficiency.

Our stringent quality control measures make it the safest protective hand wear for surgeons.

Product Code	Size
D/S/002	• XS,S,M,L

Sterile Latex Gloves

These gloves designed to be perfectly anatomical for comfortable wrinkle-free fitting. They are extremely soft rubber reduces finger fatigue and increases efficiency.

Features

- Anatomically Shaped.
- Soft Module prepared.
- Sterile

Product Code	Size
D/S/001	• XS,S,M,L

Sterile Powder Free Gloves

These gloves designed to be perfectly anatomical for comfortable wrinkle-free fitting. They are extremely soft rubber reduces finger fatigue and increases efficiency.

Features

- Lower modulus for better comfort
- Powder free gloves for eliminating the possibility of skin irritation
- Thicker gloves for enhanced safety

Product Code	Size
D/S/004	• XS,S,M,L

Nitrile Examination Gloves

Powder Free Nitrile Gloves are anti-static in behavior, good solvent resistant, odour free, and hence useful in food and dairy industry.

Features

- Latex-free, odour-free and powder-free
- Can Withstand IPA washing (ISO Propyl Alcohol).
- Can be used in food industry
- Ideal for doctors with latex allergy

Product Code	Size
D/S/001	• XS,S,M,L

Shoe Cover

Disposable Plastic Shoe Cover comes with universal fitting, to make sure that these can be used by anyone. These are made with highest quality standards and are available at very reasonable price in the market.

Features:

- Reusable
- Light weight
- Simple to wear and remove
- Keeps place dust free

Product Code	Size
D/S/006	• One Size

Surgical Gown

This surgical gown is designed from the excellent quality material which assures you perfect protection of a surgeon during major surgeries penetration for a short time.

Features

- Tear resistance
- Impeccable quality
- Long life

Product Code	Size
D/S/007	• Small

Disposable Apron

These aprons are designed from the premium quality material keeping in mind the standard of market. Offered aprons provide complete protection to the hospital Nurses and other staff while working with patients.

Features:

- Highly absorbable
- Tie type mechanism on the back
- Comfortable to wear

Product Code	Size
D/S/008	• All sizes are available

Disposable Plastic Apron

These items are widely utilized as protective garments. The mentioned items are known in the industry for its perfect fitting, optimal antibacterial property and light weight.

Product Code	Size
D/S/009	• All sizes are available

Disposable Lab coat

This product is worn by pharmacists and lab workers for safety against germs and chemicals.

Features:

- Easy to use
- Flawless design
- Comfortable to wear

Product Code	Size
D/S/010	• All sizes are available

Disposable Coat

Disposable Coat is designed in accordance with industry standards and is acknowledged for quality and user-friendly nature. Offered range is extensively used in different hospitals and laboratories.

Features:

- Chemical resistant
- Easily disposable
- Elegant design

Product Code	Size
D/S/011	• All sizes are available

Disposable Apron & Coat

These lab coats are manufactured using non woven fabric, which we procure from reliable and reputable vendors of market. These are made using premium quality fabric which ensures skin friendliness and provides optimum comfort.

Product Code	Size
D/S/012	• One Size

Disposable Scrub Suit

This Scrub suit is used in various textiles and garments industries for their high grade quality.

Features:

- Easy to wash
- Colourfastness
- Perfectly stitched

Product Code	Size
D/S/013	• XS,S,M,L

Patient Gown

The gowns are designed to provide uttermost comfort to patients.

Features:

- Durable, excellent finish and tear resistance.
- High quality fabric and skin-friendly.

Product Code	Size
D/S/014	• All sizes are available

Disposable Bed Sheets

Fine quality non woven fabric is used for manufacturing these bed covers that can be disposed off without much hassle.

Features:

- Easy to Dispose
- Light weight
- One time Use
- Comfortable

Product Code	Size
D/S/015	• Standard

Ophthalmic Drapes

Drapes are made out of SMS material for patient comfort, surgeon performance and asepsis at the operation site.

Features

- Drape designed to fit surgery on either eye
- Integrated fluid collection pouch
- Integrated incise film – available both with and without aperture
- All-in-one solutions are easy and convenient for one person to drape

Product Code	Size
D/S/016	• Multiple sizes

Disposable Underpads

These thick incontinence pads can help protect bedding and sheets from uncontrolled bladder or urinary problems in men, women, kids, or elderly to improve confidence and sleep.

Features:

- Absorbent Fluff Fill Polymer
- Help Absorb Liquid to Reduce Skin Irritation
- Fast-Drying Comfort
- Latex Free, Non-Sterile
- Guaranteed Satisfaction

Product Code	Size
D/S/007	• 17" x 24" (Each)

Disposable Undergarments

These are made with highest quality material in accordance t pharmacopeia standards.

Features:

- Exquisite designs
- Intricate patterns and textures
- Flawless finish
- Protective

Product Code	Size
D/S/018	• One Size

Disposable Adult Diaper

These Diapers are highly absorbable , has a super soft inner padding which gives a cloth like feel, they are odour free & leakage resistant. These are for UNISEX & used by adults who are bedridden, sick or handicapped or who are unable to attend nature calls during travel.

Product Code	Size
D/S/019	• XS,S,M,L

Disposable HIV Kit

They must withstand challenges such as large volumes of blood and irrigation fluids, our Brand C-CURE range of surgical drapes. It contain products such as : Face Mask , Head Cap, Goggle , Surgeon gown SMS, surgical gloves & shoe

Features:

- E.T.O. Sterilized with E.T.O. indicator
- Fabric: SMS
- Effective cost
- Supreme quality

Product Code	Size
D/S/020	• Standard

Surgeon Cap

These caps are made from non-woven fabric. It is designed as per the latest market trends and can match with the expectations of our clients in terms of quality and are available at competitive

Features:

- Precisely designed
- Disposable
- Light weight

Product Code	Size
D/S/021	• Unisex

Alcohol Swabs

- These Alcohol Swabs are non woven cellulose swabs
- The alcohol swab contains 450 mg (approx) mixture of isopropyl alcohol and purified water
- The size of the swab is 25 X 55 mm
- The swab is usually applied to the skin in one direction and the area is then allowed to dry before injecting a medicine, vaccination or drawing blood.

Product Code	Size
D/S/022	• 25mm * 55mm

Iniection Needles

Made from highest quality cannula our needles come with a regular bevel and super sharp tip for a pain free injection and siliconized with medical grade silicon for a smooth glide.

Features:

- Sterilized
- Safe to use
- Precisely designed

Product Code	Size
D/S/023	• 4 inch to 6inch

Syringe Needle

As a quality driven enterprise, we are engaged in providing a beautiful range of **Syringe Needle**.

Features:

- Light weight
- Perfect finish
- Leak proof

Product Code	Size
D/S/024	• 0.5ml , 10ml etc

IV Cannula

To avoid repeated venepuncture in patients for whom fluids, electrolyte solutions or medication must be given intravenously on a permanent basis, an I.V. cannula is inserted, which can generally be left in place for few days till the time patient recovered

Features:

- Advanced Flashback technology
- Snap fit cap
- Sterilized using Ethylene Oxide

Product Code	Size
D/S/025	<ul style="list-style-type: none"> • Wings And Injection Port – 14 to 26G • Without Port and With Wings – 14 to 26G • Without Wings and Without Port • Without Port and Small Wings – 24 to 26 G • With integrated three way stop cock – 16 , 18, 20 , 22G

Neo Drip set

Neo drip set is made of high quality material. Soft & kink resistant PVC tubing ensures uniform flow rate. It has bacteria retentive air inlet with snap on cap

Features:

- Sharp and easy piercing air vented spike
- Transparent drip chamber
- Approximately 20 drops/ml
- 15 micron fluid filter in drip chamber
- Smooth roller clamp facilitates easy, safe control and adjustment of fluid rates

Product Code	Size
D/S/026	<ul style="list-style-type: none"> • Standard tube length : 150 cms • Tube dia : I Ø 3.0 mm, O Ø 4.1 mm

Tracheostomy Tube

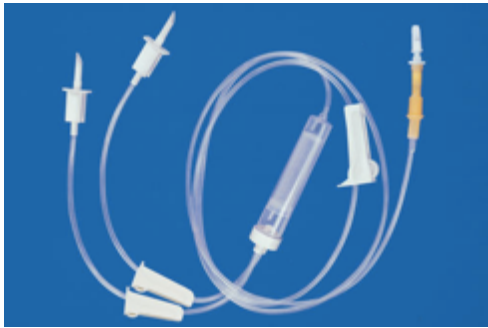

A Tracheostomy (trach) tube is a curved tube that is inserted into a tracheostomy stoma (the hole made in the neck and windpipe (Trachea).

Features:

- Convenience
- Durability
- Sterilization

Product Code	Size
D/S/027	<ul style="list-style-type: none"> • Length : 10 to 24cm

Blood Administration set

This is available in different variants to suit diverse demand of our huge clientele.

Features :

- Drip chamber with filter mesh
- Regulator clamp to control transfusion rate.
- Kink resistant, soft, PVC tubing.
- Latex bulb to administer medication.
- Available in Single-drip/Double-drip chamber variants.
- Options of Latex bulb site/Y-injection site; Luer-slip/ Male-rotator variants.
- Disposable, sterile and non-pyrogenic.

Product Code	Size
D/S/028	• Standard

Infusion set

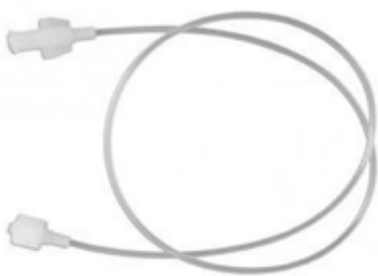

Sterile item, used for parenteral administration of injectable preparations. Not for use with blood or blood products.

Features :

- A collection of sterile devices designed to conduct fluids from an intravenous (IV) fluid container to a patient's venous system
- 20 DROPS PER ml+- 0.1 ml.

Product Code	Size
D/S/029	• Needle size : 21g

Extension Line

Our extension are made of Soft and kink resistant PVC. These have Male luer lock connector at one end and female luer lock connector at other end.

Features:

- Kink resistant PE tubing
- For pressure up to 55 bar (800 psi)
- Tube dia : 1.0 mm & 2.0 mm
- Tube dia : 1.5 mm & 3.0 mm

Product Code	Size
D/S/030	<ul style="list-style-type: none"> • Extension Tube with 3 Way Stop Cock - 10-200 CM • Extension Tube Low Pressure - For pressures up to 4.5 bar (65 psi)

Pressure Line

It is made of high quality medical grade PVC tubing, which is used to connect intervention catheters reducing the risk of kinking.

Features:

- P.M. Line is used as an extension to connect medical instruments & 3 way stopcock.
- Choice of either one or two male luerlocks mated to two female luerlock connectors.

Chest Drain Bag

Under water sealed drainage system

Product Code	Size
D/S/038	• Standard

Vacuum Suction Set

Transparent suction gun is made from medical grade polymers. 2.5m long translucent tube attached with suction gun for efficient and aromatic suction.

Features:

- Soft flexible adaptors at both ends of the tube provide safe grip to the handle as well as suction source.
- Vent port is closed with tight fit sleeve, which can be removed by small incision to shift to vent control system.
- Sterile, individually packed in a peelable soft

Product Code	Size
D/S/039	• Tube Length 250 cm, diameter 9.00 mm

Abdominal drainage Kit

Soft abdominal drainage catheter with collection bag of 2000 ml. capacity

Product Code	Size
D/S/040	• 20, 24, 28, 32 & 36

Closed Wound suction set

For drainage from closed wound under negative pressure.

Features:

- Closed Wound Suction set comes with transparent spring bellow suitable for drainage under negative pressure post operatively with the options to operate one or two catheters simultaneously
- The suction system has a connecting tube with clamp and “Y” connector

Product Code	Size
D/S/041	• 6, 8, 10, 12, 14, 16 & 18

Umbilical Cord Clamp

The umbilical cord clamp is a medical device used to hold the cord in place when the cut (surgery) is made, and the clamp may stay on for several days while the remaining cord attached to the baby dries.

Features:

Provided with double purpose security lock click to indicate the correct locking and protect against accidental reopening.

Product Code	Size
D/S/042	• Standard

Wound Drainage System

To remove blood and excess fluid so as to prevent or minimize hematomas. To eliminate dead space. To promote approximation of skin flaps. To reduce the potential of post-op infection. To enhance wound healing. To reduce post-op pain and swelling.

Product Code	Size
D/S/043	• 100, 200ML

Corrugated Drain Sheet

Fluid drainage from open wound fully opaque & non toxic

Features:

- Efficient multi channel wound drainage specially where airtight closure of wound is not possible
- It has extra soft PVC which does not contribute to local inflammation
- The radio opaque line provided throughout the sheet length allows for clear X-ray visualization
- It is sterile, individually packed in a H.M polybag

Product Code	Size
D/S/044	• 25mm *250mm

Trocar Catheter

To remove blood and excess fluid so as to prevent or minimize hematomas. To eliminate dead space. To promote approximation of skin flaps. To reduce the potential of post-op infection. To enhance wound healing. To reduce post-op pain and swelling.

Features

- Nonoperative pleural and chest drainage
- Markings are provided at 5, 10, 15 & 20 cm from the distal tip to help ascertain the depth of penetration
- It is sterile

Product Code	Size
D/S/045	• 8, 10, 12, 14, 16, 18, 20, 22, 24, 28, 32, 36, 40

Mucus extract

Collection of Mucus Specimen

Features:

- The product is especially designed for aspiration of mucus in the newly born babies
- Transparent graduated chamber allows measurement and visual examination of the aspirate.
- Spare cap is provided for safe storage of specimen for testing and aseptic disposal.
- Available with filter also.

Product Code	Size
D/S/046	• Capacity : 25 ml, 40ml, 100ml, 175ml

Infant Feeding Tube

Features:

- It is used for neonates and paediatric feeding.
- Made from non toxic, medical grade PVC
- Distal end is smooth coned shape for non traumatic intubation.
- Two lateral eyes for efficient drainage.
- The tube is marked at 20 cm from the distal end for accurate placement into the abdomen
- Proximal end is provided with luer mount for connection with feeding device.
- Sterile

Product Code	Size
D/S/047	• 5 FG to 10 FG

Redon Drain Tube with Trocar

A redon drain is placed directly into surgical wounds by means of a trocar or other surgical instrument to perform wound drainage.

Product Code	Size
D/S/048	• 8, 10, 12, 14, 16 & 18

Nasogastric Tube

This is designed for patient undergoing long term gastro- intestinal feeding, aspiration and intestinal secretion.

Features:

- Made of Soft, frosted and kink resistant PVC tubing.
- Four lateral eyes for aspiration and administration.
- Non-toxic, Non-irritant medical grade PVC.
- Disposable, Sterile, single use

Product Code	Size
D/S/049	• Multiple sizes

Stomach Tube

Features:

- Super smooth kink resistance tubing
- Atraumatic, soft rounded
- Proximal end is fitted with universal funnel shaped connector for extension.
- Color coded connectors for easy identification of size as per standards.
- X-Ray opaque line provided through out the length of Tube.
- Available with DEHP Free Material.
- Available with universal luer Connector.
- Open Distal end or closed distal end.

Product Code	Size
D/S/050	• 18FG to 24FG

Kher T Tube

Short term postFor short term post operative drainage of common bile duct. Its length: is 12cm X 60cm

Product Code	Size
D/S/051	• 10, 12, 14, 16, 18

Levin's Tube

Intended for aspiration of intestinal fluid or administration of internal nutrition

Product Code	Size
D/S/052	• 6 FG to 24 FG

Salem Sump Tube

Intended for prevention of air accumulation on Gastric Secretion in Duodenum

Product Code	Size
D/S/053	• 14 FR/CH (4.7 mm) x 48" (122 cm)

Ureteral Catheter (F)

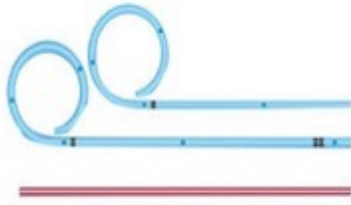

This is made from medical grade PVC material. It's two lateral eyes for efficient drainage.

Features:

- Utilized for short-term bladder catheterization
- Super smooth tangle resistant tubing guarantees uniform flow rate.
- Soft rounded, Safe, closed tip with 2 lateral eyes for ensuring efficient drainage.
- Proximal end is featured with global funnel shaped connector for extension purpose. Plain connector is colour coded for simple recognition of size.
- X-Ray opaque line given through out the catheter's length.
- Sterile / Disposable / Separately Packed

Product Code	Size
D/S/054	• Upto 16 inches

DJ Stent

Short and Long Term connection of urethra and bladder ,closed tip & Open Tip

Product Code	Size
D/S/055	<ul style="list-style-type: none"> Length : 10cm – 30cm

Ureteral Catheter (M)

It offers a smooth surface firm enough for insertion yet soft enough to be slightly pliable. Staggered eyes maintain tip strength during insertion and promote efficient drainage.

Features:

- BPA free
- Latex free
- Sterile
- Staggered eyes

Product Code	Size
D/S/056	<ul style="list-style-type: none"> Upto 16 inches

Haemodialysis Catheter

Made up of specially formulated and biocompatible Polyurethane material, which provides strength during insertion for longevity and also softens at body temperature to conform to the body tissues and reduces the risk of vascular trauma

Product Code	Size
D/S/057	<ul style="list-style-type: none"> Insertion Length : 19cm to 50cm

Foley Balloon Catheter

Designed to ensure that the balloon materials, tips and fluid channel provide the best possible performance

Features:

- Blockage-free balloon
- Elliptical side eye
- Maximum fluid flow
- Trauma-free catheterization
- Colour-coded valve sleeve

Product Code	Size
D/S/058	<ul style="list-style-type: none"> • Adult size : 12 to 24 FG • Paediatric Size : 06 to 10 FG

Urine Bag

The urine bags are available in various designs, in order to allow each user to choose the right bag for the right indication.

Features:

- Universal connector,
- Simple drainage and a drainage valve, which prevents the reflux of urine into the bladder and effectively prevents an ascending infection.

Product Code	Size
D/S/059	• 8, 10, 12, 14, 16, 18, 20, 22, 24, 28, 32, 36, 40

Silicon Foley Balloon Catheter

Foley Balloon Catheters have been carefully designed to ensure that the balloon materials, tips and fluid channel provide the best possible performance and the highest degree of comfort to patients while in use.

Features:

- Blockage-free balloon
- Elliptical side eye
- Maximum fluid flow
- Trauma-free catheterization
- Colour-coded valve sleeve

Product Code	Size
D/S/060	<ul style="list-style-type: none"> • Adult size : 12 to 24 FG • Paediatric Size : 06 to 10 FG

Urometer

Endotracheal Tube Cuffed

An endotracheal tube is a flexible plastic tube that is placed through the mouth into the trachea (windpipe) to help a patient breathe.

Features:

- Low pressure high volume cuff
- Reduces risk of creasing on inflation and minimises pressure on tracheal wall
- Misting can be clearly seen to confirm intubation
- Minimises the risk of trauma

Product Code	Size
D/S/064	• 4.55 mm to 10mm

Endotracheal Tube Plain

Features:

- Made from thermosensitive material readily conforming to body contours at body temperature.
- Nasoral tip suitable for nasal/oral intubation.
- Provided with lateral eye at the distal end.
- Radio-opaque line throughout the length to facilitate the exact location of the tube.
- Proximal end is fitted with standard 15 mm connector.
- Sterile

Product Code	Size
D/S/065	• 2.0,2.5,3.0,3.5,4.0,4.5 & 5.0 MM

Silicon Manual Resuscitators

It is intended for pulmonary resuscitation

Features:

- Made of pure, clear, durable silicone, 100% latex free.
- All parts can be easily dismantled for cleaning and disinfecting.
- Silicon resuscitators bag and silicone face mask can be autoclaved repeatedly at 134 degree.

Product Code	Size
